March 2011

**Please forward to Public Education:**

United Laboratories (UL) has launched their "Safety Smart" program online. The site allows children to interact with various lessons including ones on fire safety.

Features include; interactive games, blogs and a photo wall. They also can be certified as a **safety wizard**, like Harry Potter. Please post the link below on your FD, LEA or municipal website.

The Governor has asked that more local information be placed on municipal websites. This is a great opportunity to place a fire safety public education message that is available 24-7. If you need one send an email to this address.

## F.I.R.E. BOWL

The 2011 New Jersey Division of Fire Safety F. I. R. E. Bowl challenge is gearing up for yet another edition. Finalists have been selected, and this year's bowl features an annual Orientation at the Middlesex Fire Academy on March 31st.

The competition is scheduled for Wednesday May 18, at the Wilkins Theater at Kean University.

Bayonne has dominated in the past, but there is always a chance that a new champion may arise from the field of challengers in this classic battle of middle school student fire knowledge!

Come watch the competition! Bring an educator and perhaps your school can join in the fun next year.
