

March 2015

It appears that spring is about to arrive!

With the newness of spring we announce our Town's website upgrade which I hope will benefit all residents, as well as visitors of our fine community.

Please visit our website on a periodic basis to see our upcoming events such as: Summer Concert Series, Senior Citizen activities, Safe Kids' Day and more.

Further, please visit our new Waterfront Park located at 71<sup>st</sup> Street and River Road and enjoy the breath taking views during your visit.

As you are aware we have had a very difficult winter due to the constant snow falls. I would like to take this opportunity to commend our Department of Public Works for their outstanding performance in making certain that our streets were passable.

In addition, I commend the members of the Police Department for various life saving events and apprehension of offenders during the past year.

On behalf of the Town Council, I wish all a Happy Spring and Summer Season.

Best Wishes,

Gerald R. Drasheff  
Mayor
