

EMS SHARED SERVICES ANNOUNCEMENT
Guttenberg – Weehawken – West New York

December 1, 2025

Dear Residents,

We are pleased to announce a new shared-services initiative between the Township of Weehawken, the Town of West New York, and the Town of Guttenberg that will strengthen and enhance Emergency Medical Services for all of our communities.

This collaboration ensures that when a medical emergency occurs, the closest and available ambulance from Weehawken or West New York will respond to all three communities, resulting in faster response times, more consistent coverage, and improved service for our residents and visitors. By working together, we are able to deliver a higher level of public safety without increasing costs, and in many cases, reducing them.

This agreement reflects a broader commitment among our towns to building smart, sustainable regional partnerships. While this is an early step, it marks the beginning of a stronger and more coordinated regional system, one that will allow us to share resources more efficiently and provide even better, enhanced services in the future. This partnership also strengthens our ability to work together during major incidents, storms, or regional emergencies, ensuring our communities are better prepared when it matters most.

We are proud to take this important step forward together, and we look forward to continuing to build regional efforts that protect and strengthen our communities.

We also thank Weehawken Township Manager Giovanni D. Ahmad and West New York EMS Coordinator William Bringas, whose coordination helped build the structure and framework behind this initiative and set the stage for its continued growth.

Sincerely,

Wayne D. Zitt, Jr.
